ACHIEVEMENTS

Administrative Optimization

Designed and initiated the development of a quotation software projected to reduce administrative workload by 30%.

Technical Leadership

Promoted to Feature Lead at CEAR Latinoamericano after demonstrating exceptional technical problem-solving skills

LANGUAGES

Spanish English

SKILLS

WordPress Elementor

WooCommerce PHP Laravel

Tailwind

Diego Rodríguez

Senior Web Developer | WordPress & Elementor Specialist | Technical Solutions & Project Management Focus

WORK EXPERIENCE

Project Manager / Tech Team Lead

Alma Quinta, Perú (Remote) | May 2024 - present

- Lead a team of 3 developers, overseeing the full software development life cycle, from requirement analysis to final deployment.
- Conduct Quality Assurance (QA) reviews to ensure every WordPress/Elementor site meets the highest visual and technical standards.
- Currently developing an in-house quotation software aimed at reducing administrative process time by 40%.

Frontend Web Developer

Alma Quinta, Perú (Remote) | Aug 2023 - Apr 2024

- Developed WordPress sites from scratch, ensuring "pixel-perfect" layouts based on Figma designs.
- Implemented complex functionalities through plugin configuration and theme customization.
- Actively participated in the redesign of the "Chambeala" platform, using Laravel Blade for frontend development.

Web Programmer

Strive Enterprise, USA (Remote) | Dec 2022 - May 2023

- Created and designed custom layouts for WordPress and Shopify themes.
- Implemented business logic using Shopify Liquid and WooCommerce plugins.
- Managed and administered digital inventories and product catalogs.

Web Developer (Feature Lead)

CEAR Latinoamericano, Perú (Remote) | Dec 2021 - Mar 2022

- Collaborated on the development of the SISTELAR arbitration system, working with the Laravel, PHP, and MySQL stack.
- Led the development of a core system module, coordinating a junior developer to meet delivery deadlines.

EDUCATION

Software Engineer

Universidad Politécnica Territorial de Yaracuy "Arístides Bastidas",
Independencia, Yaracuy | Sep 2016 - Dec 2023

CORE COMPETENCIES

- **Leadership & Collaboration**
Technical direction of development teams (up to 3 members) focused on on-time delivery of high-quality products and requirement compliance.
- **Strategic Communication**
Ability to translate complex business needs into clear technical specifications, improving operational efficiency through documentation and process guides.
- **Analysis & Problem Solving**
Analytical mindset applied to process optimization; for example, designing internal tools to reduce administrative workload by 20-30%.
- **Adaptability & Holistic Vision**
Cross-functional experience ranging from "pixel-perfect" frontend development to product management and technical administration in WordPress and Laravel environments.
